

AdBlue® transferring kit in solid structure for private use. It allows the quick and clean filling of the vehicles. It permits the following functions: the identification of the authorised users, the pre-selection of dispensed quantity, the detection of the total consumption and the single-user consumption, the record of the deliveries and the management of 200 users. The system is equipped with key-manager to start the delivery quickly. The system includes the nozzle holder with microswitch to turn the pump on/off, automatic nozzle with swiveling joint and side hose holder. The equipment can be fixed to the wall, to a tank or to its own column.
